VP, Sales & Products

Cédric Baldenweck

President, Sales & Business

Frédéric Grossi

VP, Technology & Operations

Two French companies have decided to join their capacities under the brand new **BEE GROUP** banner:

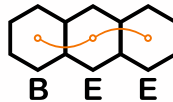

Lumens, is a solution integrator, specialized in audio, video, automation, communication and surveillance.

Akumendo, is a solution developer, specialized in User Interfaces unifying entertainment, remote control, guests and crew information.

BEE, is now our **Bureau of Entertainment Engineering**. Since this merger it was obvious that a third company would efficiently provide upstream engineering, design user experiences and drive innovation into projects...

Bureau of Entertainment Engineering

Far more than a blueprint shop for cables, racks and appliances, BEE was born and is driven to bring innovation, advanced development, elegant design and an unique user experience to yachts and hospitality projects...
 Our team spirit is based on a strong legacy yet is entirely turned toward the comprehensive and forward looking concept of a Smart Yacht...
